Every business has a story to tell, and the images you use are often the first impression people have of your company. Whether you're updating professional headshots, documenting a corporate event, or creating marketing imagery that reflects your brand, my goal is to deliver polished, authentic photographs that elevate your business.

With more than 30 years of professional photography experience, I focus on creating a relaxed, efficient experience while producing images that look natural, professional, and timeless. From individual executives to large conferences and company celebrations, every session is tailored to your organization's needs, timeline, and brand identity.

The following packages are designed to provide clear, straightforward pricing while allowing the flexibility to customize coverage for businesses of every size. If you don't see exactly what you're looking for, I'd be happy to create a custom quote.

MEET EDNA

For more than 30 years, I've had the privilege of photographing thousands of people—from CEOs and entrepreneurs to entire corporate teams and large-scale events. One thing I've learned is that most people don't love having their picture taken... and that's perfectly okay.

My job is to make the experience easy, efficient, and surprisingly enjoyable. Whether I'm photographing one executive or hundreds of employees, I work quickly while paying close attention to the details that matter: flattering lighting, natural expressions, professional posing, and images that reflect both confidence and authenticity.

I understand that your time is valuable. That's why I focus on creating a smooth, organized experience from start to finish, delivering polished images that represent your company at its very best.

When I'm not photographing businesses, I also specialize in weddings, portraits, and commercial photography throughout Southern California.

No matter the assignment, my goal is always the same—to create images that people are proud to share and that help tell their story with professionalism and impact.

I look forward to working with you and your team.

WHAT TO EXPECT

Hair + Makeup

Please arrive camera-ready with your hair, makeup, and nails completed before your session. Professional hair and makeup are always recommended, as they photograph beautifully and can make a significant difference in your final images. Looking polished before you arrive allows us to maximize your time in front of the camera.

Payment

Your session fee is due at the time of booking to reserve your date and time. Please note that the session fee is separate from your image collection or package and is non-refundable.

Scheduling

Corporate headshot sessions are typically booked 1–2 months in advance. Weekday appointments may be available on shorter notice depending on my schedule.

If you need to cancel or reschedule, please notify me by phone or text at least 48 hours before your appointment. All session fees and deposits are non-refundable.

Wardrobe

Choosing the right clothing can have a huge impact on your final portraits. If you'd like guidance, I'm always happy to help with outfit selection.

I generally recommend solid colors, muted tones, black, navy, earth tones, and minimal patterns. Simple, classic clothing photographs best and keeps the focus where it belongs—on you. If you'd like additional inspiration, I'd be happy to share my Pinterest wardrobe boards before your session.
